COOKIES POLICY

The purpose of this Cookies Policy is to inform you in a clear and precise manner about the cookies used on our website and the purposes for which they are used.

1. What are Cookies?

Cookies are small data files that are sent to the user's computer, mobile phone or other access device when visiting a website page and which allow obtaining information related to their browsing or a code that allows the user to be univocally identified.

In this sense, cookies are stored on devices to store data that can be updated and retrieved by the entity responsible for their installation

2. Type of Cookies and purposes of use

When browsing this website, session cookies and persistent cookies are used, which, in turn, can be own or third-party cookies.

- Session Cookies are cookies designed to collect and store data while the user accesses a website. They are usually used to store information that only needs to be kept for the provision of the service requested by the user on a single occasion.

Redefining Impossible

- Persistent cookies are a type of cookies in which the data remains stored in the terminal and can be accessed and processed for a period defined by the party responsible for the cookie, which can range from a few minutes to several years.

Likewise, depending on the purpose for which they are used, this website uses the following types of cookies:

- Technical Cookies are those that allow the user to navigate through a website page, platform or application and use different options or services that exist on it, such as, for example, controlling traffic and data communication, identifying the session, accessing restricted areas, and using security elements during navigation.

- Personalization Cookies are those that allow information to be remembered so that the user can specify or personalize some features of the general options of the website, such as, for example, language, screen background, etc.

- Analytical Cookies are those that allow the monitoring and analysis of the behaviour of users of the website, to create navigation profiles, in order to introduce improvements based on the analysis of usage data on the supply of products and / or services.
